lishers' net profits over \$4,000. A
protest was made by representatives of
the American Newspaper Publishers'
Association, who believed that the
committee might reconsider its action
to-day.

Millers of Central Kentucky, in ses-
sion at Lexington, sent to President
Wilson yesterday a telegram in which
they urged immediate action on pend-
ing food control measures, asserting
that the wheat market situation in this
State was extremely critical, and that
unless action looking to relief is tak-
en without delay milling and depend-
ent industries will suffer immeasur-
ably.

The "Whirlwind Squadron" of the
Red Cross campaign, confining their
efforts to-day to the heads of big busi-
ness concerns, expect to raise the \$45-
413 required to complete Louisville's
allotment of \$250,000 for the war work
of the organization. Subscriptions to-

boats.

President Wilson has given his sup-
port to Senator Pomeroy's resolution
to empower the Government to fix coal
prices.

SATURDAY.

In Volhynia and Galicia, the Rus-

sians have begun a strong bombard-
ment of the German positions and, it
is believed, that this will finally result
in a determined offensive against the
Teutons. In France the Germans have
lost heavily in furious attacks upon
French troops, while operations on the
British front have been brought to a
standstill by unfavorable weather.

Mal. Gen. Goethals, manager of the
Emergency Fleet Corporation, will be
authorized by President Wilson to com-
mander immediately all shipping now
building, speed up its construction and
spend the \$500,000,000 appropriated by
Congress for ship building. The Federal
Trade Commission was requested last
night to investigate the question of
prices to be paid for steel.

Unofficial advices from Vienna are
to the effect that the Cabinet crisis
has not yet been settled. It is asserted
that Count Camillo-Martinic, the Pre-

Ministry and has requested Emperor
Charles to relieve him of the task.

Several Louisville banks contributed
\$2,000 each to the Red Cross fund yester-

ron" to \$235,570. It is expected that
the remaining \$14,430 will be subscrib-
ed to-day.

Disorders again have broken out
among the sailors of the Russian Black
Sea fleet at Sebastopol. They are re-
ported to be connected with the re-
tirement of the commander of the fleet,
and propaganda by reactionary forces.
The trouble is not believed to be serious.

An inquiry into prices of steel, coal,
copper and other basic materials used
by the Government for war purposes
was decided on to-day by the Senate
Interstate Commerce Committee. Coal
will be the first subject taken up.

for air raids over England have re-
ached the conclusion that it would
be best to await the arrival of Ameri-

men's and Soldiers' Delegates yester-
day approved a resolution creating a
coalition government.

SUNDAY.

The Germans announce the capture
of a French position on a front of
about one mile. They also took 300
prisoners. They have been unable to
advance further, despite furious at-
tacks, according to the official French
communication, which says that 1,200
shells were dropped yesterday on
Rheims. Included in the booty which
fell into the hands of the Italians last
Friday were four guns, fourteen ma-
chine guns, 1,000 rifles and much war
material. Dr. Hurd, an American physi-
cian, at present in Russia, reports
having seen many "storming battalions"
eager to fight and anxious to assist in
regenerating the Russian army.

Prohibition regulations of a sweep-
ing character were written into the
Administration Food Control Bill last
night by the House. After several
hours of parliamentary sparring, dur-
ing which the prohibitory proposals
were thrown out repeatedly on points
of order, the prohibition element got
the upper hand and forced adoption of
amendments which would forbid the

use of any foodstuff during the war
for making intoxicants and would give
the President authority to take over
in his discretion all stocks of distilled
liquors. The bill was passed, 365 to 5.

Dissolution of the Council of the Em-
pire and the Duma is demanded in a
resolution adopted by the Pan-Russian
Congress of Deputies of Soldiers and
Workmen. The action was taken after
prolonged debate. In a speech before

sador Bakmetieff pledged new Rus-
sian devotion to the cause of democ-
racy against autocracy and declared

Red Cross campaigners in American
cities and towns to make the week's
cavasses for \$100,000,000 an entire suc-
cess. New pledges reported to national

trol of that region against German

bers of his staff have been received

logna, Italy, abandoned his pretense of
innocence and confessed that he mur-
dered Ruth Cruger, a high school girl,
in his bicycle repair shop in New York.
He admitted that an assault preceded
the crime.

Raoul Laffrey, of the American Laf-
ayette Squadron, is mentioned as "a

thorized by the Espionage Act was
assumed yesterday by President Wil-
son with the appointment of an Ex-
port Council consisting of the Food
Administration and the Secretaries of
State, Agriculture and Commerce.

cense system, and every precaution
taken to prevent commodities finding
their way to Germany through neu-
trals. My international agreement the

ment to the Postoffice Appropriation
Act. This act makes it a Federal vi-
olation to ship intoxicating liquors into
a State where the manufacture is for-
bidden by State law. It provides also
that publishers shall not mail liquor
advertisements into States barring the
same. It is stated that a Cairo, Ill.,

KEPT HER AWAKE

The Terrible Pains in Back and
Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson,
of this place, writes: "For one year I
suffered with an awful misery in my back
and sides. My left side was hurting me
all the time. The misery was something
awful.

I could not do anything, not even sleep
at night. It kept me awake most of the
night. I took different medicines, but
nothing did me any good or relieved me
until I took Cardui.

I was not able to do any of my work
for one year and I got worse all the time,
was confined to my bed off and on. I got
so bad with my back that when I stooped
down I was not able to straighten up
again. I decided I would try Cardui.

By time I had taken the entire bottle
I was feeling pretty good and could
straighten up and my pains were nearly
all gone.

I shall always praise Cardui. I con-
tinued taking it until I was strong and
well. If you suffer from pains due to
female complaints, Cardui may be just
what you need. Thousands of women
who once suffered in this way now praise
Cardui for their present good health.
Give it a trial.

of the Reed Amendment.

By the narrow margin of less than
twenty feet, an American trans-Atlantic
liner proceeding from an American port
to an English port, escaped being
struck by a torpedo aimed at her by a
German submarine. American gunners
on board the liner sighted and fired
upon the U-boat, but whether their
shells reached the target could not be
ascertained. Only the quick and skill-
ful maneuvering of the liner saved her
from destruction.

Premier Lvoeff has requested the
President of the Duma to evacuate the

papers report that the Government has
agreed to issue a decree dissolving the
Duma.

added over \$5,000 yesterday to the
fund, although the city had previously

meeting at noon yesterday at Keith's
Theater pledged, within ten minutes,
\$41,415 to the fund of \$243,000 required

An aggressive campaign will be con-
ducted to raise the \$97,587 more needed

YES! LIFT A CORN OFF WITHOUT PAIN

Cincinnati authority tells how to dry
up a corn or callous so it lifts
off with fingers.

You corn-pestered men and women
need suffer no longer. Wear the shoes
that nearly killed you before, says this
Cincinnati authority, because a few
drops of freezone applied directly on a
tender, aching corn or callous, stops
soreness at once, and soon the corn or
hardened callous loosens so it can be
lifted out, root and all, without pain.

A small bottle of freezone costs very
little at any drug store, but will positi-
vely take off every hard or soft corn
or callous. This should be tried, as it
is inexpensive and is said not to irri-
tate the surrounding skin.

If your druggist hasn't any freezone
tell him to get a small bottle for you
from his wholesale drug house. It is
fine stuff and acts like a charm every
time.

LUKE M'LUKE SAYS:

The reason why a man hollers so
much when his wife asks him to tie
her shoe lace for her is because he
would fall all over the street to do it
for a strange girl.

As a rule the man who is stingy with
everything else is just as liberal with
his advice as other people.

One reason why we like to see a wo-
man with a few fine children is because
we know that the children keep her so
busy that she hasn't time to join a So-
ciety for the Suppression of Something.

When you locate a man who
does only the things he can afford to
do you find that he doesn't do much.

Any old time a man returns a bor-
rowed umbrella to you always upon it
before he gets away. You'll discover
that it is either torn or broken. That's
the reason he's returning it.

The hapless man isn't the fellow
who has millions. He is usually a ci-
viled man who hasn't a thing to his
name, but who has just filled up on
pork chops and who is playing a guitar
in the kitchen after supper.

After a woman has been married for
a while she begins to realize that it is
more important that her husband be a
Good Provider than that he be a Good
Husband.

Why shouldn't men make better chap-
arones than women? They are used to
looking after girls.

Most of us are so busy looking for
little faults in other people that we
overlook the big faults in ourselves.

We don't suppose a woman would
know what to do with a vote if she had
one. But some of the lads who sit
around and argue against Woman Sur-
frage have wives who are supporting
them.

Why is it that a man who will run
10 squares to do a favor for some other
woman won't walk across a room to do
a favor for his wife?

Her own husband may not get much
of her sympathy, but every married
woman feels sorry for some other wo-
man's husband.
A man may imagine that he is a
smart guy. But it takes a woman to
sharpen a lead pencil with her teeth.
